THE POWER OF BRANDS

CERRUTI 1881

BIRTH OF THE BRAND

The business was founded in 1881 by the Cerruti family in Biella, a textile mill town near Milan and Turino, Italy.

The Piemontese claim that because of the purity of their water their region is better for washing and dyeing wool than anywhere else. One thing that is certain is that the water enabled the brand to succeed again and again, not only with its textile but also the men and women's creations, which brought the brand international recognition.

The qualities and values of the brand can be appreciated once again through the range of Cerruti 1881 accessories, collection based on pure contemporary lines privileging modern materials, raw, molded or machined, reflections of Cerruti's authenticity. As Cerruti no longer considers the accessory as an isolated product, it is divided in to families of coordinates thus bringing a force to the models which integrate perfectly into the universe of materials and colours characteristic in each Cerruti 1881 line.

NINA RICCI

A synonym of style and timeless femininity since its creation, the House of Nina Ricci has acquired a prestigious reputation in the area of fashion and perfume. Although its celebrity is unquestionably tied to the world of luxury fragrance, the Nina Ricci story actually began with the opening in Paris of Nina Ricci couture in 1932. The House of Ricci rapidly became one of the French capital's most elegant, thanks in particular to the dynamism of Robert Ricci, the creator's son. Featured in a beautiful bottle created by Marc Lalique, *L'Air du Temps* was born in 1948 and was the forerunner of numerous successes, including *Capricci*, *Farouche* and *Nina*.

Masculine products have always been part of the Ricci universe notably with the *Ricci club* boutique, on François Ier street and the 1989 success of the *Ricci Club* perfume.

In April 2009 Nina Ricci named Peter Copping as Artistic Director for the House. Copping's arrival signaled a new step forward at Nina Ricci, where his love of flowing feminine lines echoes the spirit of Madame Ricci. Delighted by the new possibilities he has discovered, Peter Copping shares the aspirations and outlook of Robert Ricci. Without hesitation, he sights the motto of Madame Ricci, the founder of the House, for whom the goal is to "make every woman beautiful and reveal her special charm and personality".
